

BE AWARE BEFORE BUYING ONLINE

When you shop at illegal online cannabis retailers, YOU RISK:

Supporting criminal activity

Having your identity stolen

Exposing your technology to malware

Endangering your health

There are common signs to help identify an illegal online cannabis retailer. Illegal retailers may:

- Request payment by e-transfer or cryptocurrency
- Offer to ship anywhere in Canada
- Make references to the intensity of the 'high' users will experience
- List product names, but conceal the source of the cannabis
- Feature packaging/products that could appeal to young persons
- Use free email addresses
- Reference laws and regulations in an effort to look legitimate
- Have spelling mistakes or grammatical errors on their website
- Advertise referral bonuses, sign up bonuses or other promotions
- Offer unusually low prices

When in doubt, check the cannabis regulations for your province or territory, or visit: www.Canada.ca/cannabis
